METSIM® Service Package and Run-Time Options

METSIM® SERVICE PLAN

- Users can save over \$100,00 with purchase of a 3-year service contract.
- Service Plans include access to latest version of METSIM® for all tier levels.
- 2 year or 3 year service plans are available.
- Ensures all user models are fully functional and reviewed and/or built by METSIM® Experts.
- Reduces and fixes cost of MSI consulting hours for length of service contract up to the number of hours specified by Tier level.
- Flexibility of time utilization – use our team in whatever capacity required to improve the simulation model or design.
- Saves employees valuable time having MSI instruct or demonstrate unique circuits.
- Access to introductory, advanced, custom or refresher training courses can benefit all users as METSIM® is constantly improving and offering more capabilities.

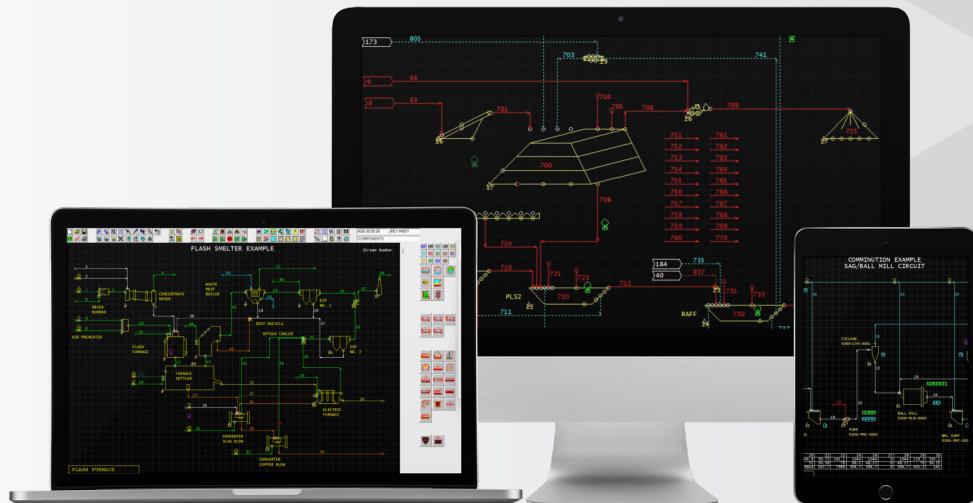

METSIM® RUN TIME

WHAT IS IT?

- Limited version of METSIM®
- Users can only calculate and analyze models
- Ability to calculate with edits to DDE criteria
- Changes are done by an MSI team member
- Only available with purchase of a service plan

BENEFITS INCLUDE

- Reduced cost from Full Version
- Access to the entire calculation capabilities of METSIM® Software
- Client only needs a limited understanding of METSIM® to navigate
- Premium quality of simulation model as it will be done by an MSI expert
